

Mohammad Naim Almani

Senior Full Stack Developer

Personal Information

Marital Status: Married

Nationality: Swedish

Date of Birth: 03 May 1988

Visa Status: Authorized in EU Union

Phone Number: UAE: +971 52 688 3359, Sweden: +46 76 557 6981

Email: mohammedmaani@hotmail.com

LinkedIn: [linkedin.com/in/mohammadalmani](https://www.linkedin.com/in/mohammadalmani)

GitHub: github.com/mhmdmaani

Willing to Relocate: Anywhere

Profile

Senior Full Stack Developer with over 10 years of extensive expertise across various programming languages, frameworks, and DevOps practices.

Proficient in developing robust web and mobile applications, with a strong foundation in both front-end and back-end development.

Innovative problem solver adept at addressing complex challenges with scalable solutions.

Continuously seeks to improve processes and technologies for optimal results.

Areas of Expertise

- Front-End: React Native, React JS, Next JS, JavaScript, TypeScript, HTML, CSS, SCSS, Styled-components, Tailwind CSS, MUI, Recharts, Storybook, Redux, React Query, Socket.io
- Back-End: Node JS, Java, Spring Boot, TypeScript, Express JS, NestJS, PHP, RESTful API, GraphQL, Prisma/TypeORM, MongoDB, PostgreSQL, Microservices
- DevOps:
 - o CI/CD Pipelines: GitHub Actions, Jenkins
 - o Containerization: Docker, Kubernetes
 - o Version Control: GIT
 - o Cloud Platforms: AWS, Azure
 - o Infrastructure as Code (Terraform)
 - o App Store, Google Play app deployment
- Testing: Jest, Enzyme, React Testing Library, Mocha, SuperTest
- Other: Python, Swift

- Core Competencies:
 - o Problem Solving: Expert in tackling complex issues.
 - o Tech Integration: Merges technologies seamlessly.
 - o Leadership: Guides teams to success.
 - o Mentorship: Nurtures junior talent.
 - o Code Quality: Ensures high standards.
 - o Agile: Proficient in agile practices.
 - o Learning: Always expanding skills.
 - o Architecture: Designs scalable systems.

Work Experience

Lead Full Stack Developer (On-Site)

Avrioc Technologies

2024 – Present

In AI and Innovation department,
Developing and maintaining full-stack applications using **Next.js**, **React**, **NestJS**, and **TypeScript integrated with AI models**.

- Building and integrating AI-driven modules and microservices to enhance internal tools and client platforms.
- Working with **AWS (Lambda, EC2, S3, SNS)** for cloud infrastructure and **Prisma** for efficient database management.
- Collaborating closely with the AI research team to transform prototypes into production-ready systems.
- Implementing real-time communication features using **Socket.IO** and **WebRTC** for data streaming and collaboration tools.
- Ensuring CI/CD automation with **GitHub Actions** and maintaining deployment pipelines.

Lead Full Stack Developer (REMOTE)

National Quick Courier UK

10/03/2024- Present

Developed a comprehensive platform for booking couriers, enabling users to schedule, track, and manage courier services efficiently.

- Technologies Used: React Native, Next.js, Node.js, TypeScript, PostgreSQL, Vercel, AWS.(S3, ECS, EC2, SNS)
- Designed and implemented the front-end using Next.js and TypeScript, ensuring a

responsive and user-friendly interface.

- Developed the back-end with Node.js and TypeScript, including RESTful APIs to handle user requests, authentication, and real-time updates.
- Managed database design and operations with PostgreSQL, optimizing for performance and reliability.
- Integrated third-party APIs for courier tracking and notifications.
- Ensured security best practices, including data encryption and secure authentication methods.
- Conducted testing and debugging to maintain high code quality and performance.
- Deployed the application to cloud services, ensuring scalability and uptime.
- Collaborated with stakeholders to gather requirements, provide progress updates, and incorporate feedback.

Lead Full-Stack Engineer (On-Site)

Finstreet Limited, Abu Dhabi, UAE

07/11/2022 - 14/12/2023

Pioneered the development of a cutting-edge exchange and custom trading platform, overseeing a talented team to successful fruition.

- Technologies Used: VueJS, ReactJS, NextJS, Redux, NodeJS, TypeScript, Microservices, React Native, Azure, AWS Services, Kafka, Socket.IO, GitHub Actions.
- Guided and led a dedicated development team from project inception to launch.
- Utilized frontend and backend expertise, incorporating Kafka and Socket.IO for real-time data.
- Engineered an exchange and trading platform with tailored database design, modular micro-services, and innovative blockchain integration.
- Implemented CI/CD pipelines using GitHub Actions to automate testing, deployment, and integration processes.
- Managed cloud infrastructure on Azure and AWS, ensuring scalability, security, and high availability.
- Championed continuous improvement through Agile methodologies.

Full-Stack Developer (On-Site)

GOOZO, Sweden, Gothenburg

2015 - 2022

Spearheaded the architecture and development of web and mobile applications.

- Technologies Used: React Native, ReactJS, VueJS, NextJS, Redux, NodeJS, NestJS, TypeScript, Java, SpringBoot, Microservices, AWS Serverless, Kafka, Kubernetes, Terraform, GCP.
- Driving database management excellence with PostgreSQL, MySQL, MongoDB.
- Developed scalable and performant solutions using a variety of technologies.
- Integrated infrastructure as code (IaC) practices using Terraform to automate and manage

cloud resources efficiently.

- Leveraged Google Cloud Platform (GCP) and AWS Serverless architecture for various projects, enhancing application performance, reliability, and scalability.
- Implemented CI/CD pipelines to automate the testing and deployment processes, ensuring consistent and reliable application releases.
- Managed containerized applications using Kubernetes, optimizing resource utilization and scalability across multiple environments.

Full Stack Developer (REMOTE)

Amoaji Mobile App

12/03/2024 - 13/05/2024

Developed a mobile application to facilitate the booking of boats and marine trips.

Technologies Used: React Native, Node.js, TypeScript, PostgreSQL, AWS.

Education

- Java Developer: IT Hogskola University, Sweden (April 2020 - May 2022)
- Computer Engineering: Damascus University, Syria (April 2010 - May 2015)

Languages

- Arabic: Native language
- English: Full Professional Working Proficiency
- Swedish: Professional Working Proficiency

Driver License

- EU Driver License B (June 2014 to Present)
- UAE Driver License B (July 2023 to Present)
